

Dear Active members,

We would like to inform you, that Active office is moving to Stockholm. The Active board has decided to move the Active office from Örebro to Stockholm, this will take place after the Congress in August 2010. According to the minutes from the Congress 2008 in Ransberg, Sweden, Active congress decided that it is up to the Active board 2008 - 2010 to decide the legal domicile of Active. After careful consideration of pros and cons, we have concluded that it is more economical, environmental, effective and reasonable to move the office to Stockholm. This change will not have a negative impact on our activities. We will still hold our seminars, host EVS, coordinate regional events and we believe in additional improvements of the organisation. We are looking forward to continuing our cooperation and communication with you from our Active office in Stockholm. We will inform you when we have changed the post address, on how to contact us then.

On behalf of the board,

Linn Landmark

President
